

# ABOUT US

Venue Central provides the ultimate in urban chic and luxury and we are licensed for civil weddings.

From the moment you step into our elegant reception with its marble floors and stylish bar and seating area you will see that no expense has been spared on our interior design.

Once through reception there are two floors to choose from, each with their own bar and special features.

On the first floor there is a dance floor and both floors have state-of-the-art sound systems and LED lighting so that all of the walls and windows can be flushed with the colours of your choice to match the theme of your wedding.

Both floors also provide an area that can be used as a quiet area, children's lounge or informal buffet.

There is also a bridal suite which provides the perfect retreat for the bride and our staff will be on-hand throughout the day to make sure that everything runs smoothly.

# PERSONAL SERVICE

Our attention to detail and personal service will ensure that your wedding is an enjoyable and stress free experience.

Right from the start our wedding planner will guide and assist you throughout the process so that absolutely everything is considered, planned and organised.

As part of this we will also help you to source good quality suppliers for any additional items that you require on the day from special table decorations and flowers to unusual entertainers or musicians.

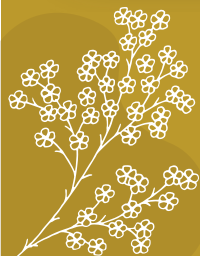

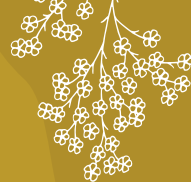

With good hotels and convenient parking right on our doorstep, we can also work with our partner hotels to ensure that your guests and delegates receive preferential rates and discounted parking.
